VIAVI CX300 ComXpert

The CX300 ComXpert is an easy to use, complete communications test solution capable of testing everything from portable radios, to complex infrastructure, to broadband networks. The CX300 incorporates the most popular features from our industry leading test sets into a field portable package without sacrificing specs or performance.

### At A Glance

# **Standard Features**

The below list of features come standard on every CX300.

- 3 GHz frequency range
- Spectrum Analyzer
- Tracking Generator
- WiFi
- VNC
- GPS
- Smart Access Anywhere
- StrataSync
- Remote Command Interface
- Bluetooth

# **Optional Features**

The below features are options available on the CX300.

- Frequency Range up to 6 GHz
- P25
- P25 Phase 2
- Auto-Test Applications

# A Complete Test Suite

The global land mobile radio (LMR) market is rapidly transitioning from analog to digital. The CX300 is designed with advanced frequency, power, and modulation analysis instruments for both analog and digital systems.

## The CX300 Instruments and Technologies Currently Available

• AM / FM

- P25 Phase 1
- Phase Modulation
- P25 Phase 2
- Single Side Band
- LSM

- Channel Analyzer
- Spectrum Analyzer
- Tracking Generator

• LTE

#### CX300 Instruments and Technologies Coming Soon

- TETRA BS
- TETRA MS

• DMR

- NXDNdPMR
- TETRA Direct Mode
- P25 Trunking

• P25 Vocoder

• Vector Network Analyzer

### **Innovative User Interface**

An industry-first multi-tab user interface allows you to instantly switch between test setups without having to reload settings. This user interface is similar to an internet browser with the ability to switch between test setups with a push of a button. The revolutionary QuickSwitch<sup>™</sup> feature makes testing quick and easy by allowing you to rapidly switch between the Duplex, Transmit, and Receiver Tests without leaving the current test measurement setups. QuickSwitch is available in analog, P25, and DMR testing modes.

Multi-Tab User Interface with QuickSwitch

## **P25 Test Features**

The CX300 provides many P25 test features, including Linear Simulcast Modulation. The large display provides access to the distribution plot, eye diagram, constellation plot, and trajectory plot displays for in-depth modulation analysis. You can view multiple plots simultaneously, or can enlarge a specific plot to full screen for detailed viewing. Measurements are displayed in an easy to read format.

## Auto-Test

The CX300 is designed for complete automated radio test and alignment for analog and digital radios. Using the accurate instrumentation and high-speed remote command architecture, the CX300 optimizes radio performance in minutes with minimal human interaction.

The CX300 supports numerous automated test and alignment options. Customize test sequences and parameters to fit your testing needs. Once your test is configured, the CX300 allows you to view the test progress and the test results at the same time.

Test results are automatically stored and can be exported through USB to an external PC for printing and for documentation purposes. Your test data can also be uploaded to VIAVI StrataSync or transferred to a PC or portable device utilizing the Smart Access Anywhere app.

Auto-Test Screens

# StrataSync

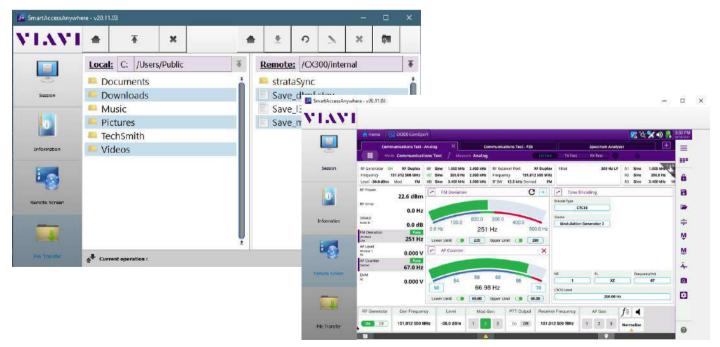

StrataSync is a hosted, cloud-based software application that provides asset configuration and test-data management from anywhere in the world. The wireless technology in the CX300 lightens your workload by synchronizing your test results to the cloud and keeping your test set updated with the latest software. Easily save and access test results for both manual and automated tests.

StrataSync Dashboard

## **Smart Access Anywhere**

The VIAVI Smart Access Anywhere application is a handy tool for remotely controlling the CX300. The SAA App enables remote operation from your PC or portable device, which allows your to operate the unit and transfer files from a remote location.

Smart Access Anywhere

### **VIAVI Care Support Plans**

#### Increase your productivity for up to 5 years with optional VIAVI Care Support Plans:

- Maximize your time with on-demand training, priority technical application support and rapid service.
- Maintain your equipment for peak performance at a low, predictable cost.

Plan availability depends on product and region. Not all plans are available for each product or in every region. To find out which VIAVI Care Support Plan options are available for this product in your region, contact your local representative or visit: <u>viavisolutions.com/viavicareplan</u>
